

Efforts are made to make all aspects of Mackinac State Historic Parks accessible. Where possible, physical changes have removed barriers. Alternate programs or services provide additional access opportunities and future projects will continue to improve access.

The historic and natural environments of the Straits of Mackinac sometimes present impediments to accessibility. Blowing sand, natural trails, and steep grades can make traveling difficult. Many 18th- and 19th-century buildings have entrance steps, narrow doorways, and other physical barriers.
